

## WE ARE NOW ONLINE WITH THE UPDATED WEBSITE

As your Stevens County Assessor, I am happy to inform you that our website has recently updated and now has the updated parcel information available. Our new site still has the same capabilities of our previous site. You have the ability to search for assessment information by using either a parcel number, legal or street address. You may also search sales on the current site, a new feature.

The goal of this web site is to help you find the information you need and to keep our “search” for property information open 24 hours a day, 7 days a week. I welcome your response or suggestion for improving this site. My dedicated and professional staff are known for their courteous service. Please feel free to come in or call and we will gladly help with any of your questions.

### How to Reach the Real Property Search

- 1) Type [www.co.stevens.wa.us](http://www.co.stevens.wa.us) which will take you to the Stevens County home page.
- 2) Click on Parcel Information on Assessor’s/ Treasurer’s Site

### Helpful search hints

#### Parcel Number Search

Enter a parcel number in this blank field and press the search button. You must enter at least 7 digits for a parcel search. If your parcel number is only 5 you must enter two 0’s in front of your parcel number before you hit search.

#### Address Search

When using a site address you may need to use an abbreviated address.

- If you are not getting positive results, check to make sure you have the abbreviation correct. Most roads, streets, lanes are abbreviated rd,st, ln, etc.
- If you are looking for an address on a Highway which has addresses north and south, if it is on the south highway it is abbreviated Hwy S and if it is north is spelled out Highway N.
- You may enter the house number and hit search and you should receive a listing of all parcels which have that number in the address or beginning of their parcel number. You can then scroll down and select the one you are looking for.

#### Township/ Range/ Section Search

Enter the 6 digit numbers with the letters T, R, and S in front of them **ex. T36R38S21**. Do not use any spaces or hyphens, dashes, etc. This will bring you a list of all of the parcels in a particular section. There may be several pages.

#### Assessor’s Maps- Mapsifter

You may access our parcel layer maps through mapsifter. While in mapsifter you may also search by parcel number, address or township/ range/ section. Just type in your criteria and will bring a list of parcels in area or at address or parcel number. Click on the parcel you want and the map will zoom to that parcel. You may need to use the zoom tool in the right hand lower corner of the map to zoom in closer to view parcel numbers on the map. Be sure the **Label – Parcel** is checked under the Legend box. You may turn on the **Label Address** or **Land Use** if you need to view these features.

You can access parcel information such as assessment, treasurer, appraisal from the map by clicking on the parcel number in the balloon callout. Our new map allows you to pan around the surrounding area if you wish to find information on surrounding parcels.

As your Assessor it is my hope the online search will meet the taxpayer needs for quicker and easier access to the Assessor’s Office.

Sincerely, (AI) Allen R Taylor, Stevens County Assessor
